Objective	<ul style="list-style-type: none"> • To understand various design and layout of pharma industry. • To know about culture and environment of pharma industry.
Company profile	<p>KVG Ayurvedic Pharma and Research Centre, Sullia,</p> <p>KVG Ayurveda Pharma & Research Centre - Manufacturer of herbal regular pain balm, pain relief balm & nutra bioactive co enzyme noni drops in Sullia, Karnataka.</p>
Prepared by	<p>Dr. Pallavi. K Member, Training and Placement Cell Committee, YPCRC, Mangalore</p>

Report on Industrial visit:

The Educational visit to KVG Ayurvedic Pharma and Research Centre, Sullia was organized by Yenepoya Pharmacy College and Research Centre on 7th Feb 2020. All in all there were 89 students actively participated in the visit which was successfully coordinated by Mr. Abdula Rahmanulla, Mrs Sandhya V, Dr. Mobeen Shaik, Dr. Pallavi. K. We started our journey at 9.00 AM from Mangalore and reached our destination at 11.30 AM. After reaching the premises we received a warm welcome by the company members. Dr. Purushottam, head of KVG addressed the students and faculties and introduced about KVG Ayurvedic Pharma and Research Centre. He also explained about the products manufactured there and future plans. Dr. Rohith, KVG, explained us about the entire manufacturing process and products of KVG via ppt presentation which was really helpful for the students to understand before entering the actual production unit. Students were divided into three groups as per instruction from Dr. Rohith, production in charge and each group was headed by an expert for plant visit. Firstly, we were taken to gowning room and provided with head caps and foot covers

Various units observed during visited:

- Raw material receiving and storage areas:
- Green Belt- Approved
- Red Belt- Rejected
- Yellow Belt- Under Process
- Pulverization area
- Screening area
- Boilers
- Root wash and juice extraction
- Fermentation section
- Volumetric filling machine
- Dispensing area
- Blister packing machine
- Capsule filling machine (automatic and manual)
- Tablet compression machine
- RO/UV plant

- Horizontal/vertical muffle furnace
- Packing and labelling area
- Record keeping area
- Control sample area
- Shade drying area
- QC Lab
- Change room
- Packing material storage areas
- Control sample area

It took around an hour for everyone to complete the visit. Staffs received some of their products as gift. Lastly, we ended the visit by clicking a group photograph and we moved out of the plant. We had refreshment drink given by them and started back from Sullia around 1.30 pm and reached college at 3.30 pm.

Power point presentation about KVG Ayurveda Pharma and Research Centre, Sullia.

The delegates were divided into small groups of 25 each and 3 such groups were lead to ACTS-YEN for training

Three stations set up at ACTS-YEN were:

1. Human Patient Simulator for the diabetic ketosis casualty patient case scenario. Dr. Shaheen B. Shaikh, Assoc. Professor, Dept. of Biochemistry, Diabetologist, YMCH, explained the case.
2. A virtual experience with Anatomage → for showing the radial arteries and other arteries used for ABG sampling. Dr. Qudusia Sultana, Asst. Professor, Dept. of Anatomy, YMCH handled the station.
3. Demonstration of proper arterial blood sampling- Mr. Chethan, BD Specimen Management, demonstrated the proper techniques

The program received excellent positive feedback about simulation lab technology especially the anatomage, program organization and hospitality.

Report on Therapeutic Taping

The Yenepoya Physiotherapy College, Yenepoya (Deemed to be University) conducted a 2 days hands-on **Workshop on “Therapeutic Taping” on 20th & 21st January 2020** from 9.00 am to 5.00 pm in the Yenepoya Dental College auditorium. Prof.S Padmakumar, Principal of Yenepoya Physiotherapy College & Organizing Chairman welcomed the gathering. Registrar, Yenepoya (Deemed to be University) Dr. Gangadhara Somayaji K S was the Chief Guest for the programme and

The workshop was inaugurated by lighting the lamp by the dignitaries on the dais.

Dr Gangadhara Somayaji K S in his inaugural address emphasized the need of updating oneself with the latest techniques which is the need of the hour & also appreciated the efforts of the Physiotherapy College in keeping up with the recent trends and encouraged the students to make good use of this opportunity. Dr Syed Rais Rizvi, explained the concept of therapeutic taping.

Ms. Veena Pais, Associate Professor, Yenepoya Physiotherapy College proposed the vote of thanks.

52 beneficiaries participated in the workshop which included faculty members, PG students, interns of Yenepoya Physiotherapy College & also delegates from NITTE & Srinivas College of Physiotherapy.

REPORT OF AHA BLS & ACLS COURSE

From 9th December 2019 to 11th December 2019 interns & PG's have undergone AHA (American Heart Association) certified Basic Life Support (BLS) & Advanced Cardiac Life Support (ACLS) training conducted by ACTS YEN at 8th Floor EMD auditorium. The training programme was an international accepted with certification valued for a period of 2 years.

The main aim of the course is to provide a wide variety of healthcare professionals the ability to recognize several life threatening emergencies, provide CPR, use an AED, and relieve choking in a safe, timely and effective manner. The course was followed by a theory exam and practical exam with hands on training on mannequin. Feedback was collected from the students. The session was very interesting with the presence of instructors.

WORKSHOP REPORT

Function in Pediatrics: Liberating the limbs and mouth with a strong core

A 5 day hands on workshop on 'Function in Pediatrics: Liberating the limbs and mouth with a strong core' was conducted from 11th November 2019 to 15th November 2019 at Dental Auditorium, 5th Floor, Yenepoya Dental College, Yenepoya (Deemed to be University)

The inaugural Program had the presence of our Chief Guest Dr. M Vivekanand Vernekar, Dean, Yenepoya Homoeopathic Medical College & Hospital on 11th November 2019 at 9 30 am. The resource persons for the workshop was Dr. Kaushal Bhatt, MPT(Ped), C/NDT, Certified in Sensory Integration (USC/WPS) and Dr. Meghna Kanani, MPT(Ped) C/NDT, SI trained (USC/WPS). The organizing chairman for this hands on workshop was Prof. S. Padmakumar.

The beneficiaries for the workshop were 7th Semester Physiotherapy students, interns, postgraduate students. There were 56 participants for the workshop.

Day 1:

The participants were introduced to the concept of the workshop and the theoretical basis of Neurodevelopment therapy and ICF model was explained. The practical aspects of how to rehabilitate the cases of hypotonia were demonstrated. To understand the importance of proper assessment and documentation of the cases, handouts were provided. Setting goals for treatment of the cases were discussed and examples were discussed. There was practical demonstration on the techniques used for rehabilitating children with spasticity. Video clippings of various cases were shown by the resource persons from their personal experience

Day 2:

Typical development of the child with all the milestones, and atypical development of the child with developmental challenges were shown through the videos. Practical aspect of how to provide facilitation for postural alignment was shown and the participants had a good hands on training. The importance of use of the various sizes of swiss ball was highlighted. The importance of maintaining a key point of contact was also demonstrated during the practical sessions.

Day 3:

Discussion mainly focused on the possible challenges associated with hypotonia and ataxia. To understand this practicum was conducted on the ball bolster and various dynamic surfaces. The participants gained a good understanding of the difference in training the children on different surfaces to achieve rehabilitation goals.

Day 4:

Special arrangements were made to mobilize the patients from Vitla, Suraksha Physiotherapy center. Four children from Vitla arrived for the demonstration and treatment. How a child with hypertonia and dyskinetic cerebral palsy needs to be trained to achieve small functional independence was discussed. Importance of weight bearing function was highlighted through hands on training on lower extremities. There were also 3 other children who were ready to come from nearby areas for demonstration and treatment. In all 7 cases hands on demonstration was done on day four of the workshop

Day 5:

The participants were introduced to the basics of sensory integration and the possible issues that a child with cerebral palsy experiences. The assessment and treatment session for sensory integration was demonstrated through videos.

<p>Dr Shivashankara A.R. Quality Manager, Father Muller Medical College Hospital and Associate professor Department of Biochemistry Father Muller Medical College Mangalore</p>	<p>Total Quality Management in NABL Accredited Diagnostic Lab Tuesday, 05.11.2019 11.00 am Lecture hall IV, Yenepoya Medical College</p> <p>No of participants: 90</p> <p>Report:</p> <p>A quality management system (QMS) is a set of policies, processes and procedures required for planning and execution in the area that can impact the organization's ability to meet customer requirements in an organization. It was highlighted that achieving, maintaining and improving accuracy, reliability and turnaround time are major challenges for health care laboratories and QMS involves virtually every process and everybody in the lab.</p> <p>More emphasis was given to the standard NABL guidelines as per ISO 15189 2012 and all the documents from Quality manual to work instructions, records, job descriptions, technician training details, competency assessment details of all staff must be documented and monitored timely. The competency of personnel will need to be evaluated at the time of hiring and on a regular, recurring basis. Job description should reflect all skills needed and accurately describe tasks, roles and authorities. Commitment, effective communication, defining authorities and responsibilities, quality assurance program and good documentation are vital things in QMS. These were the highlights of the talk and the presentation was concluded by questions and answer session followed by vote of Thanks to speaker.</p>

Report on Dry Needling

The Yenepoya Physiotherapy College, Yenepoya (Deemed to be University) conducted a 5 days hands-on **Workshop on “Dry Needling”** from 21st – 25th October 2019 from 9.00 am to 5.00 pm in the Yenepoya Indoor auditorium and on 25th at Dental College auditorium. Prof. S Padmakumar, Principal of Yenepoya Physiotherapy College welcomed the gathering and the guest of honor. Dr. Sampathila Padmanabha Medical Superintendent Yenepoya Medical College Hospital was the Chief Guest, Dr Chakshu Bansal, C.E.O/founder of the Physoneeds academy and a certified practitioner & Instructor from South Africa was the resource person and the Guest of honor.

The workshop was inaugurated by lighting the lamp by the dignitaries on the dais.

Dr. Sampathila Padmanabha began his inaugural address by giving the description of pain and its impact on quality of life. He emphasized the need of updating oneself with the latest techniques to alleviate pain and he also added that he would do the necessary formalities to put dry needling practice as a part of pain clinic practice in the hospital. Dr Chakshu Bansal explained the concept of Dry Needling.

Mr. Khaja Mohinuddeen KP, Assistant Professor, Yenepoya Physiotherapy College proposed the vote of thanks.

35 beneficiaries participated in the workshop which included Alumni, PG students and interns of Yenepoya Physiotherapy College.

YENEPoya PHYSIOTHERAPY COLLEGE

Workshop Report- Curriculum Design and Blue Printing in Physiotherapy

A 2 day workshop on curriculum design and blue printing in physiotherapy was conducted on 16th and 17th Sept 2019 by Yenepoya Physiotherapy College in collaboration with Centre for Health Professions Education, Yenepoya (Deemed to be university). The resource person for this workshop was Dr.Kavitha Raja, Prof.& Principal, JSS College of Physiotherapy, Mysore. The total number of participants were 24 in total with 12 faculty and 12 first year Post graduates. The participants were divided to 6 groups consisting of 2 faculty and 2 PG's in each group.

Prof S. Padmakumar, Principal, Yenepoya Physiotherapy College was the organizing chairman who introduced the resource person. Dr.Abhay S. Nirgude, Deputy Director, CHPE, Yenepoya (Deemed to be University) was present during the start of the workshop. Ms. Smitha D, Associate Professor, Yenepoya Physiotherapy college was the Organizing Secretary for the workshop.

Day 1- 16th Sept 2019

The forenoon session focussed on curriculum development where contemporary demands for education in health sciences was discussed. This included outcome, content, method, assessment. The session also had the insight to the evolution of curriculum in physiotherapy. The advantages of curriculum development in deemed university compared to individual colleges were discussed. A six step approach to designing curriculum was discussed. The session has 2 group activities where problem identification, targeted needs assessment, goals and objectives, educational strategies, implementation, evaluation and feedback.

The afternoon session had SWOC analysis. There was activity of identifying the program outcomes for each of the physiotherapy subjects.

Day 2-17th Sept 2019

On the second day, blue printing was covered. The physiotherapy graduate attributes and how it is identified in each of the year of undergraduate program was discussed. The various domains of teaching was also discussed. There was an activity in which each year attributes was integrated to the next year so that there is an effective outcome to the learning process. Integrating general attributes to program objectives, course objectives and lesson plan with student and faculty feedback was done with an exercise. How the present syllabus can be modified with the attributes and how the weightage of the topic can be done based on cognitive domain, psychomotor domain, and affective domain.

The necessity of integrating the subjects horizontally and vertically was discussed with group exercise.

The workshop ended with the vote of thanks.

About us

Yeneppoya Nursing College is a constituent college of Yeneppoya (Deemed to be University) which is located at Deralakatte, Mangaluru, Karnataka which is accredited by NAAC 'A' grade and ranks 92 among 100 top universities in the country as per NIRF ranking done by MHRD and also KSURF ranked 3rd best young universities in Karnataka

The college was established in the year 2002 and has Basic B.Sc Nursing 100 seats, Post Basic B.Sc Nursing 40 seats, and M.Sc Nursing in 05 specialties 25 seats and Ph.D Nursing under the Faculty of Nursing. The College has adequate infrastructure in terms AC classrooms, Seminar halls, Central & departmental library and Laboratories. The college provides quality education by incorporating innovative teaching learning activities that focuses on clinical competence & personal attention to students. The college also creates an environment for the generation of new knowledge through research.

ACTS-YEN

The Advanced Comprehensive Clinical training and Simulation Centre (ACTS-YEN) is a unique centre and the largest state of the art simulation facility in the country with the current version of simulators which was conceptualized in 2016. ACTS-YEN is a major step towards YENEPOYA (Deemed to be University) vision of providing and promoting excellence in clinical care, competency based health professions education, ethical student training and paving the road towards improved patient care, safety and satisfaction.

About the workshop

Simulation has been used widely in the clinical training of healthcare students and professionals. It is a valuable strategy for teaching, learning and evaluating clinical skills at different levels of nursing and midwifery education. Literature shows that simulation in nursing and midwifery education provides benefits for both students and patients and can be used to train health professionals about safer and timeous interventions that comply with international recommendations, thereby increasing one's responsibility towards clinical practice and improving quality of care.

Aim

The overall aim of the workshop is to enhance the knowledge and competency of the participants regarding recent advancement in midwifery and simulation based learning in conducting normal delivery, which enables them in delivering quality care for women in labour

Objectives of the Workshop

After attending this workshop, the participant will be able to

- ❖ Acquire knowledge on simulation based learning in midwifery nursing
- ❖ Familiarize on recent advancement in management of labour
- ❖ Develop competency in conducting normal delivery using simulator
- ❖ Appreciate the skills in intrapartum monitoring using Partograph and NST

Who can attend?

The workshop specially targets the undergraduate students, post graduate students, staff nurses, and teaching faculty.

Report on Regional workshop:Midwifery simulation and skills: Leading the way with quality care

30th April 2019

The Department of OBG Nursing, Yenepoya Nursing College in collaboration with ACTS-YEN organized a regional workshop on “Midwifery simulation and skills-Leading the way with quality care” on 30.4.2019 from 9.00 am to 4.00 pm at ACTS-YEN Auditorium, EMD Building, 8th floor of Yenepoya Deemed to be University. The workshop commenced at 9.00am with registration of delegates and pretest followed by the first session on ‘Simulation based learning in midwifery-nursing perspective’ by Dr. Sonia R.B D’Souza Professor, Dept. Of OBG Nursing Manipal College of Nursing, MAHE. The resource person focused on the importance of simulation and its application to nursing practice.

The inaugural ceremony of the workshop was started at 10.15am. Inaugural function was presided by Dr. Gangadhar Somayaji, Registrar, Yenepoya (Deemed to be University). Mrs. Janet Prima Miranda, Associate Professor, HOD, Department of OBG Nursing and organizing chairperson of the workshop welcomed the gathering. The chief guest of the workshop, Dr. Sonia R. B D’Souza, Professor, Dept of OBG Nursing, MAHE, Manipal addressed the gathering. Dr. Leena KC, Dean Yenepoya Nursing College expressed her views on simulation and wished good luck for the workshop. Mr. Thippeswamy D M, Nursing Tutor, Dept of Community Health Nursing, Government school of nursing, K C General Hospital, Malleshwaram, Bangalore was present as a Karnataka State Nursing Council observer on the occasion. Ms. Vinita DSouza Asst. Professor, Department of OBG Nursing and organizing secretary of the workshop delivered vote of thanks.

Followed by refreshment, 2nd session was by Dr. Amar Ramachandran, Laparoscopic and infertility specialist, Resmi Infertility centre, Koyili (Former professor, dept of OBG, Kannur Medical College) delivered his session on ‘recent advancement in labour management’ and ‘Competencies in conducting normal delivery’. The resource person focused on the normal process of labour and its management and the competencies and observations required in identification from deviation and advances in labour management. The last session of the forenoon was delivered by Dr. Vidyashri Kamath C, Dept. Of Obstetrics and Gynecology, YMCH on ‘Intrapartum fetal monitoring’ focused on CTG, NST and Partograph Monitoring and its interpretation.

Post-lunch sessions were started at 2.15 pm with simulation activities regarding conducting normal delivery using simulator where the scenario was enacted by faculty of OBG (N), YNC along with the resource person Dr. Smitha B Rao Associate Professor, Dept. Of Obstetrics and Gynecology, YMCH and the non-technical skills were explained by Dr. Meghna Mukund, Chief coordinator, ACTS-YEN, YMC. The few volunteers among the delegates were also called to have hands on training on simulation and debriefing was done. An activity on Partograph interpretation was conducted by Mrs. Vinaya Kumary T, Asst. Professor, Dept of OBG (N), YNC

There was total 87 delegates from different colleges of Mangaluru. Workshop was concluded with post-test, feedback and distributing the certificates to the delegates.

Achieving and Sustaining Process Improvement in Hospital

Mr. Shivakumar Vishwanathan delivering the lecture

The final session was on 'Lean-Six Sigma as a tool for process improvement' Mr. Shivakumar Vishwanathan Founder CEO, Unolab Consultants, Pvt., Ltd. He discussed in brief the concepts of Lean and six-sigma and how both are used as a tool for quality improvement projects in hospitals. He highlighted on studying the various processes at the hospital, identifying and eliminating 'wastes' in processes and adding value and efficiency to the entire hospital processes.

YENEPOYA NURSING COLLEGE
REPORT ON CONTINUING NURSING EDUCATION PROGRAMME ON
CHALLENGES IN PSYCHIATRIC ASSESSMENT AND MANAGEMENT

Department of Mental Health Nursing organized a continuing nursing education program on "Challenges in Psychiatric Assessment and Management" on 07.12.16 at Indoor Auditorium, Yenepoya Medical College. Inaugural programme started at 9.30 am with invocation by Mr. Safwan Ahammed, I Year BSc Nursing student. Mrs. Vineetha Jacob, HoD, Mental Health Nursing, welcomed the gathering. The programme was inaugurated by the chief guest Prof. Chanu Bhattacharya, HoD, Research and Statistics, Father Muller College of Nursing, Mangaluru, by lighting the lamp. This was followed by chief guest address, where she highlighted about the need for conducting continuing nursing education programmes. President of the function, Hon'ble Vice Chancellor, Dr. M. Vijayakumar in the presidential address emphasized on importance of interpersonal relationship and thus improving the skill of assessment. Dr.G. Shreekumar Menon, Registrar, Yenepoya University in his speech highlighted the significance of reading and advised to read the book titled "The Brain". Vote of thanks was proposed by Ms. Viji Prasad C., Asst. Professor, Dept. of Mental Health Nursing. Dr. Asha P Shetty, Dean, Yenepoya Nursing College, was present for the function.

The first session on "Psychiatric Assessment and Management: the challenges" was started at 10.30 am. The resource person was Dr. Ravi Chandra Karkal, Asst. Professor, Dept. of Psychiatry, YMCH. He explained regarding various assessment methods. He emphasized on interview skills which is very essential to conduct assessment in psychiatry. Second session was dealt by Prof. Chanu Bhattacharya on "Preparation of nurses for working in psychiatric set up". She explained regarding challenges of nursing management and the methods to overcome it. Third session was on "Good mental health: peer support and social activities" by Dr. Jayaram, Psychiatric social worker, Dept. of Psychiatry, YMCH. He explained about the role of peer and social support in the management of patients with mental illness. The programme came to an end at 1.30 pm.

Total participants registered were 115, including nursing staff, B.Sc nursing students, MSW students and Medical PG students. All the sessions were very informative and enhanced their knowledge in assessment and management of patients in clinical setting.

REPORT OF INTERNSHIP STARTING THE JOURNEY - INTERNS SKILLS TRAINING

Acts-yen conducted Orientation programme for the interns on 20th & 21st March 2017. The interns were oriented to the facilities available in the skills laboratory and were informed regarding how they may utilize the simulation laboratory to improve their skills. Interns were also informed of the skills assessment examination (OSCE pattern) which would be conducted at end of internship and that it is mandatory for all interns, to pass the foresaid exam, to obtain an internship completion certificate.

After the orientation programme, all the interns underwent BLS Training Programme conducted by Acts-yen in association with Department of Anesthesiology under the license from American Heart Association. This training program is internationally accepted with certification valid for a period of 02 years.
