

## Registration Format

Name of the school:

Number of students attending:  
(Enclose list of students)

Name of the accompanying teacher:

Contact details of the teacher in charge:  
(Phone number and E-mail)

Please fill the registration forms in a separate sheet and send them to: [research@yenepoya.edu.in](mailto:research@yenepoya.edu.in)

For further details/ queries, please contact:

YRC Office	:	0824-2204668 (Ext: 2035)
The Yenepoya School	:	0824-2241864
Dr. Ashwini Prabhu	:	7892760362
Dr. Jayachandran Venkatesan	:	9606868644
Dr. Pratigya Subba	:	9972238973
Dr. Rajesh P. Shastry	:	9902200698
Dr. K. Sudhakar Prasad	:	9108772501
Dr. Renjith P. Johnson	:	7338172132
Ms. Aparna Hegde	:	9980567147
Ms. Sajida	:	7259853036

## IRIS - Initiative for Research and Innovation in Science

### Interactive Workshop - 2018

on 11<sup>th</sup> July 2018 at  
Dental Auditorium, 5<sup>th</sup> floor  
Yenepoya Dental College Building  
Yenepoya (Deemed to be University), Deralakatte  
Mangaluru - 575018

Organised by  
Yenepoya Research Centre (YRC)

#### Coordinators

Ms. Sincy Thomas  
Outreach Manager  
IRIS

Dr. Rekha P.D.  
Deputy Director  
YRC

Mr. Joseph Mechirath  
Principal  
The Yenepoya School

Mrs. Shylaja Shetty  
Teacher  
The Yenepoya School

IRIS National Science Fair is an outstanding example of public-private partnership initiated by **Intel Technology India Private Ltd (Intel)** with the **Department of Science & Technology (DST)**, Government of India, and the **Indo-US Science & Technology Forum (IUSSTF)**. The fair promotes and nurtures science and scientific research among young Indian innovators. It recognises and rewards outstanding projects. It provides a platform for winning students to represent India at the **Intel International Science and Engineering Fair (Intel ISEF)**, held annually in the U.S.A.

The aim is to infuse the spirit of discovery in school children, increase their interest in science and technology, and build a robust scientific temper among the youth of the country. Winners from these fairs are invited to regional mentorship camps and offered guidance on participation in IRIS.

Yenepoya Research Centre (YRC), a constituent unit of Yenepoya (Deemed to be University), is a centre which excels in multidisciplinary research. YRC has state of the art facilities and internationally trained faculty in different emerging areas of science. As part of the outreach program, YRC mentors the students and extends its facilities to carry out science projects. It provides a platform for young researchers to pitch in their ideas, refine it and also work on different aspects of science under expert guidance. Several students mentored in YRC, have been recognised in national and international level.

## Interactive workshop

**Eligibility:** Class 8<sup>th</sup> to Class 12<sup>th</sup> students

The IRIS national resource persons will be giving orientation.

The scientists from YRC will give overview on the recent developments in different fields of science and technology.

Students will have an opportunity to discuss about their project ideas with scientists and resource persons from IRIS team.

Schools can depute the interested students for this event and confirm the participation before **3<sup>rd</sup> July 2018** with filled registration form.

## Program Schedule

Time	Program
09:45 - 10:00 am	Inauguration
10:00 - 11:30 am	Orientation by IRIS team
11:30 - 01:00 pm	Scientific overview on recent developments
01:00 - 02:00 pm	Lunch & Project ideation

Yenepoya Research Centre, Yenepoya (Deemed to be University) will be conducting an interactive workshop on IRIS-Initiative for Research and Innovation in Science on 11<sup>th</sup> July 2018 in collaboration with IRIS National Science Fair outreach team. It is targeted for the 8<sup>th</sup> to 12<sup>th</sup> standard students studying in different schools.

IRIS National Science Fair is an outstanding example of public-private partnership initiated by Intel Technology India Private Ltd (Intel) with the Department of Science & Technology (DST), Government of India, and the Indo-US Science & Technology Forum (IUSSTF). The fair promotes and nurtures science and scientific research among young Indian innovators. It recognizes and rewards outstanding projects. It provides a platform for winning students to represent India at the Intel International Science and Engineering Fair (Intel ISEF), the world's largest international pre-college science competition, held annually in the U.S. Winners at the Intel ISEF not only win laurels for the nation but also get the opportunity to have a minor planet named after them — a tribute to the contributions of the young innovators in the scientific community.

Yenepoya Research Centre is nurturing young talents from different schools in science projects for many years. Many of these students have won Regional/National/ International awards in National Science fairs/competitions. This workshop will be an excellent opportunity for the children of the region to get motivation and exchange ideas for science projects.
