Dear Dr Leena

I have arrived home safely and is back in South Africa. I started work with a hectic schedule on my return at the School of Nursing.

A huge thank you for your generous gifts (my family got hold of the nice eats that were packed in the gift box). My experience to your institution was amazing and I have grown fond of the many wonderful people that I met during my visit. Please say "hallo" to everyone for me. I am attaching some of the pictures, that I took on my cellular phone, for sharing with the staff.

I am now in the process of reporting back formally to the Deputy Dean of Research. For information purposes to you, I attach the form as reference only. I would appreciate it if you could please write a short paragraph as feedback in terms of the value of my visit to your institution. You may complete it under "e)" on the **UCDG** form or you are welcome to do a separate short report that I can attach. The rest I will complete. Could I ask to receive the feedback by Thursday/Friday please?

In terms of collaborating on a research project, I recall that our discussion were directed to include comparing the two countries with regards to professional values in nursing education. I have tentatively put a proposed title on the form for you to comment on.

In meeting with the other two institutions, I thought of an interdisciplinary collaboration where four universities can work on one project that include values, leadership, philosophy, cultural and socio-economic value systems from an ethical point of view.

Please let me know what your thoughts are.

I am busy compiling a "Thank yo letter to the VC inclusive of the feedback(evaluation of my visit). Would you mind if I send it to you?

Blessings and fondest regards
Portia
