

## TELEMEDICINE

In the time of turmoil and accessibility concerns due to the pandemic, YMCH has brought into effect of telemedicine services for all in the month of April 2020. It was completely free in the beginning two months and later there is a nominal cost for the consultations. This software is supported by Hodo healthcare private limited.

Key advantages of this healzapp platform is plenty and to name a few, it is a Mobile friendly platform, a patient can opt for audio, video consultation. The unique feature is EMR facility which has got in build facility to send the prescription to patient and if they need it can be sent to WhatsApp of the patient or a medical store.

All the features are following the telemedicine guidelines of the government of India and international standards on usage of technology platforms for medical purposes. Above all it has got options to communicate with internal team like another doctor and refer a patient internally.

This healzapp site is enabled with home care and other allied service like ordering medicine, lab investigation, nursing care and very useful one is COVID doctor visit online or offline. The system is equipped with patient counselling option and internal communication.

- Application used for telemedicine access: Hodo HealZapp
- There are two channels for Teleconsultation.
  1. Directly through IVR calls (9686985055)
  2. Through Yen Peripheral telecentres.
