Contributions of Yenepoya Medical College Hospital during the Pandemic towards COVID Services:

1. Yenepoya Medical College has been in forefront from the beginning of the pandemic to provide services to the patients and community at the highest quality services and also at affordable price. Yenepoya Medical college had patients coming for covid care and treatment from in and around Dakshina Kannada and as well from other Districts of Karnataka and even from other states of the country like Kerala and Tamilnadu .Yenepoya medical college has offered a wide spectrum of Covid-19 services – Laboratory testing, ICU and non-ICU care , quarantine and isolation facilities, vaccination drive, educational programs, community services and also research. In addition , the non-covid-19 services have been uninterrupted through hospital care, outreach programs and telemedicine

3. Quarantine Center and Covid care Centre

The University set up a quarantine center in Hassan Chambers building opposite Yenepoya Campus Deralakatte and in AYUSH Campus, as per the state guidelines for the contacts of Covid patients and travelers from other states/Countries from April 2020 in the initial phases of pandemic. Later the center was converted to a 100 bedded Covid care Centre and was recognized by the department of Health and Family Welfare for treatment of asymptomatic/mild case of Covid-19. Over 600 patients have been treated and monitored in our Quarantine centers.

4. COVID vaccination Details

In the beginning of the January 2021 Yenepoya started vaccinating the Frontline Health care workers and all Hospital Personnel as per the Guidelines of Ministry of Health and Family Welfare ,Government of India vaccination Drive throughout India. Over the period from April 2020 to June 2021 a total of **2667 doses of Covishield** vaccine and **109 doses of Covaxin** has been given to the Hospital staff, All faculty, students, dependents and general population to protect them the severity of Covid infection.

5. Telemedicine Consultation a boon during the pandemic

At the early phase of Pandemic Yenepoya has started the Telemedicine consultation and made it available to all patients who are unable to travel to hospital due to restrictions imposed by the government to curb the infection. Yenepoya has a total of 8 Telemedicine centers spread across the Karnataka ,which have been serving for the patients need efficiently .Over the period from April 2020 to June 2021 a total of 1705 consultation have occurred through telemedicine centers in which 1262 were Direct Consultation to Yenepoya Hospital and 443 Consultation from across the other telemedicine Centers.

Telemedicine Centers of Yenepoya Hospital

1. Krishna Hospital , Kakinje
2. Sanjeevini Hospital, Tarikere
3. Hakeem Hospital , Bellary
4. Faizana Raza. Va Amjadi, Ranebennur
5. Vishwamanava , Chitradurga

6. Teleconferencing and Tele counseling A compassionate Covid-19 ICU care Initiative:

Yenepoya Medical College Hospital has emerged as an active and leading service provider in the covid-19 pandemic, benefitting not only Dakshina Kannada, but also other neighboring and far-off districts of Karnataka and Kerala .Healthcare beyond the call of duty, which commenced promptly at the break of the first wave of the pandemic in April 2020, continues through the second wave with sincerity, dedication and perseverance.

Unique situations call for innovative solutions: A bold, unique and innovative system was conceived by the Hospital Administration Department under the guidance of Medical Superintendent. A well-timed , well organized , need-based system combining the benefits of “tele-counselling “ and “tele- Conferencing “ under one umbrella was the most obvious solution .

Tele counseling: The consultants counseled the patient’s family member(s), face-to-face in the OPD after compilling all essential ICU updates from tele-counseling unit. They explained the patients condition in terms of severity and status (improving/status quo/ worsening) in a compassionate and truthful manner taking utmost care not to plant false hopes nor distress them with bad news.

Tele-conferencing: it was conducted to address the concerns of the patients –family unit through a virtual, yet meaningful communication between ICU patient and the family member(s)

using Google Meet. Duration of each tele –counseling session ranged from 15 to 30 minutes and every day the team counseled from 20 to 25 patients over a period of nearly 2-3 hours per consultant. A total of 170 ICU patients –family member(s) were counseled over a period of 2 months in the peak of the second wave. Some were counseled for 4-5 days in a row until their patients got shifted towards. A few needed counseling everyday for more than 15 or more days.

The District authorities (including the Covid Nodal Officer for YMCH) were impressed and have appreciated the unique initiative.
