How to Join a Microsoft Teams Meeting

[Kindly add Webinar event on Google Calendar:](#)

If you are attending Webinar, kindly click on “Yes”

*Above mentioned screenshot email has sent to all via mail

Step 1. In the calendar invitation, you will find a link to join the Microsoft Teams Meeting. You can join via the link which will allow you to use your computer microphone, speakers and webcam. Alternatively, you can dial in using the phone number and Conference ID.

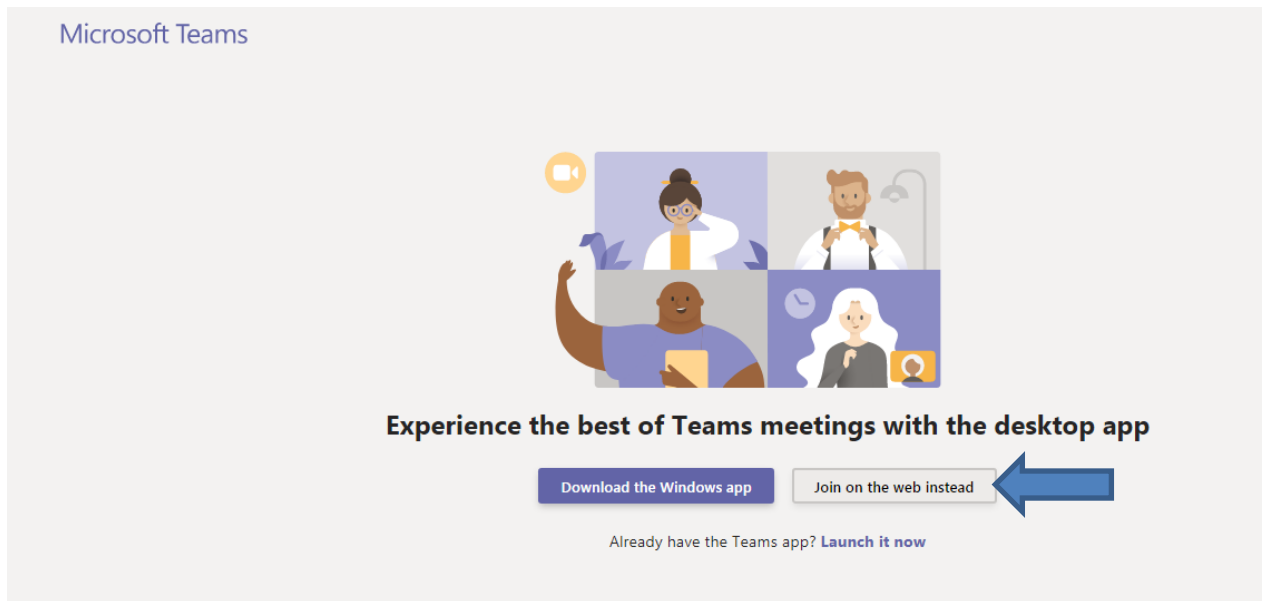

Please use the following link to join the discussion.

Join Microsoft Teams Meeting

Step 2. After clicking the “Join Microsoft Teams Meeting” link the page below will appear.

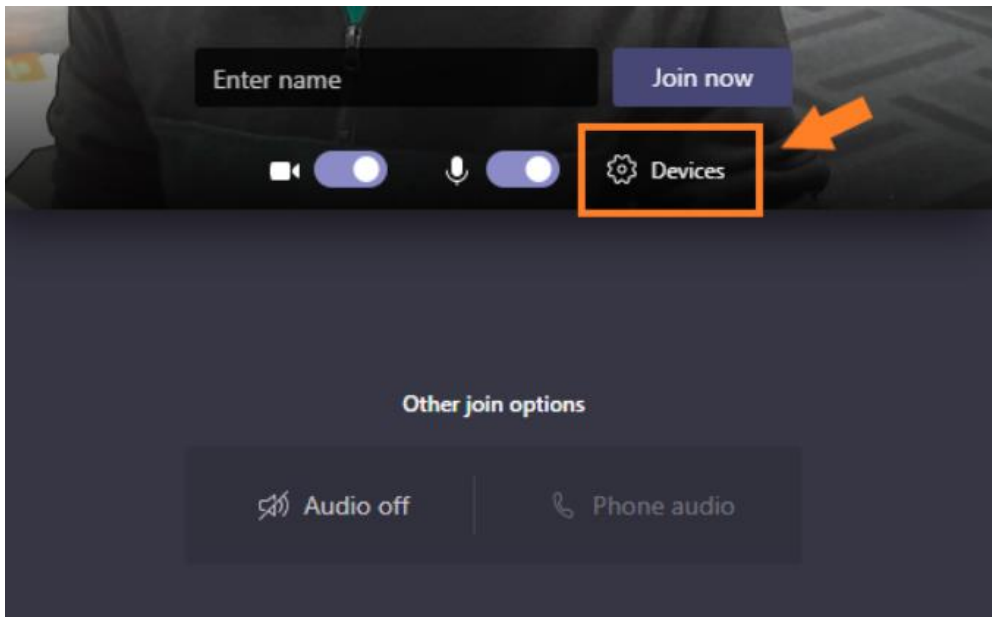

You can join a Teams meeting whether or not you have the Teams application installed. If you do not have the Teams application installed, select “Join on the web instead”.

Step 3. Once you join the meeting, a popup may appear asking you for permission to access your microphone and camera. Click “Allow”.

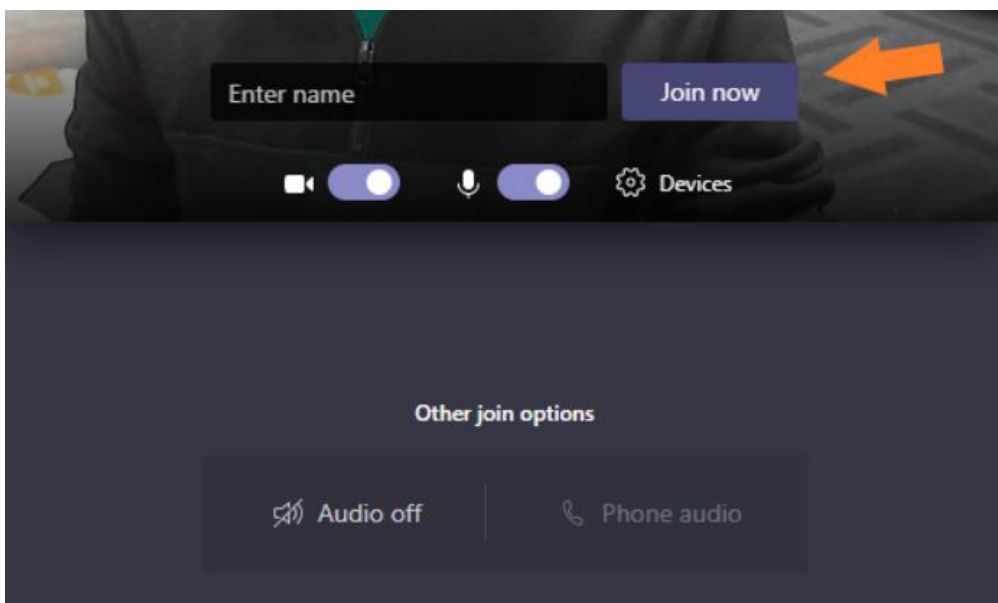

Step 4. Now that Teams has access to your microphone and camera you will see your camera feed in the Teams window. If you have multiple cameras, speakers or microphones, you can control which device you want to use by selecting the “Devices” button.

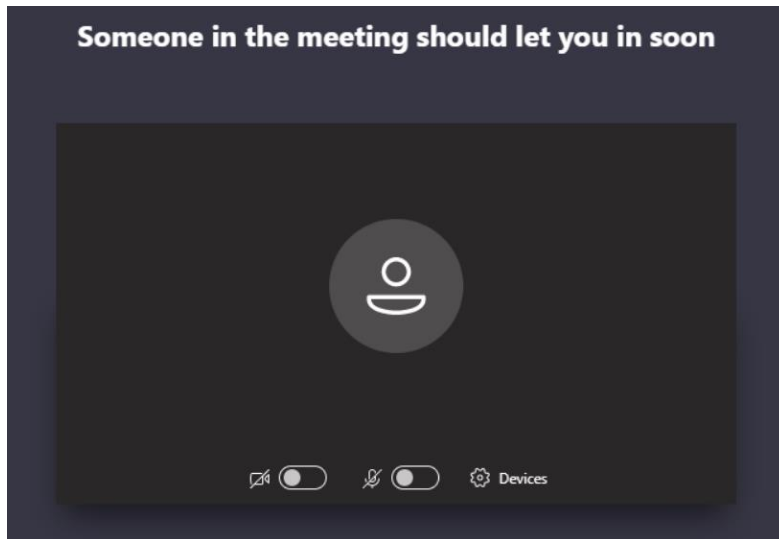

After clicking the “Devices” button, a popup will appear on the right-side of your Teams window, here you can select alternative Speakers, Microphones, or Cameras.

Step 5. Once you have the correct camera and microphone selected, enter your name and click “Join now”.

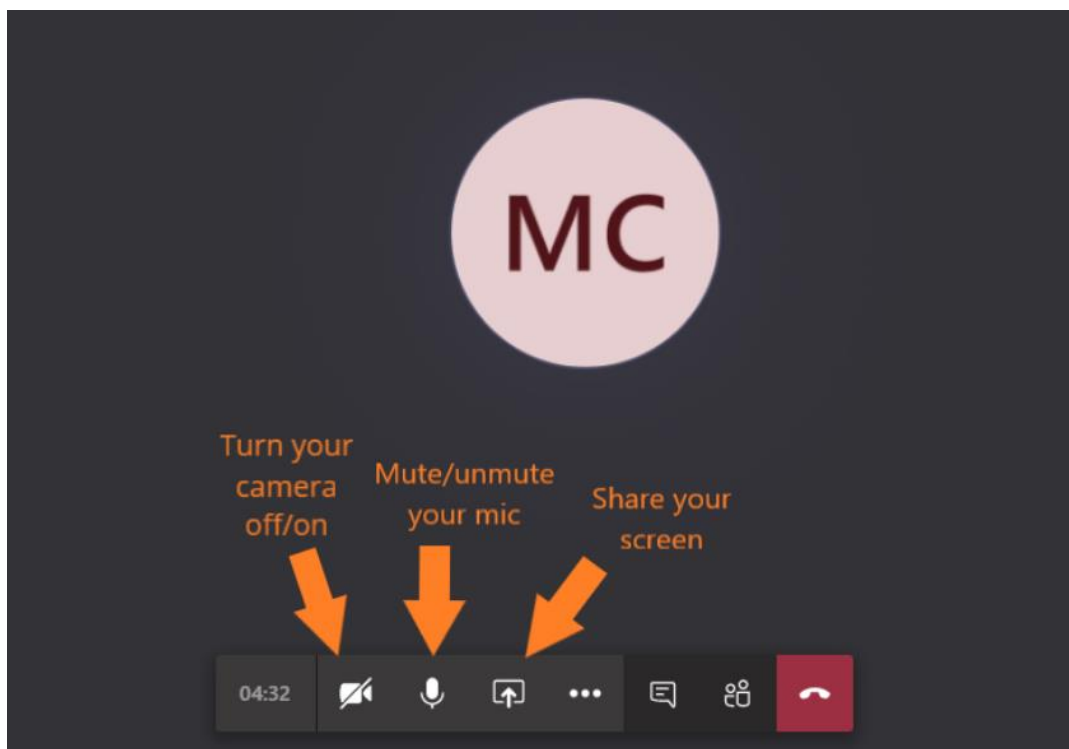

If you're joining as a guest, you may be placed into a lobby after clicking "Join now". If you're in a lobby you'll see this on your screen:

If you're in a lobby just sit tight and wait for someone to let you into the meeting.

Once You're in a Meeting

Now that you've joined a Teams meeting this will be your view. If you hover over the teams window a toolbar will appear near the bottom of the window.

The camera icon will turn your camera feed off/on.

The mic icon will mute/unmute your mic.
